**Subject:** Statement of Partnership

To whom it may concern,

As the Woodward channel partner for the region of South East Asia and Pacific, PM Control Systems Australia (PMCS Australia) is dedicated to delivering the highest standard of service and quality to its customers in Australia. Whilst based in Sydney, Australia, we are dedicated to finding trusted partners to deliver the standards we are proud of, SEA & Oceania wide.

Gas Turbine Parts & Services Indonesia (GT PSI) is a company that employs very experienced Gas Turbine Experts and identify themselves in the standards that Woodward and PMCS Australia uphold. As such, our two companies have signed a framework agreement that secures the supply and support of Woodward products to their customers.

In this capacity, PMCS Australia is supporting GT PSI with Woodward products, repairs, warranty and support. As the Woodward Channel Partner for this region, we guarantee that the products supplied are genuine, carry an 18-month warranty and are upholding the high standard that Woodward & PMCS are proud of. In addition, PMCS and GT PSI have also developed a comprehensive Woodward Gas Turbine training program.

We are looking forward to working together with our partner, GT PSI, to support and provide you with the service and products you require.

Feel free to contact us anytime with any additional questions.

With kind regards,

Matthijs Koreman | Gas Turbine Sales & Marketing Manager
